

## Fishery Conservation and Management

## § 679.27

§§ 679.7(d) and (k), 679.21(c), and 679.28; and

(ii) In the Central or Western GOA pollock fishery must comply with applicable regulations at §§ 679.7(b), 679.21(h) and 679.28.

(2) Prohibited species retained under the PSD program must be packaged, and all packages must be labeled with the date of processing, the name of the processing facility, the contents and the weight of the fish contained in the package, and the words, “NMFS PROHIBITED SPECIES DONATION PROGRAM - NOT FOR SALE - PERISHABLE PRODUCT - KEEP FROZEN”.

(3) A processor retaining or receiving fish under the PSD program and an authorized distributor must keep on file and make available for inspection by an authorized officer all documentation, including receipt and cargo manifests setting forth the origin, weight, and destination of all prohibited species bycatch. Such documentation must be retained until 3 years after the effective period of the PSD permit.

(d) *Processing, handling, and distribution.* (1) Processing and reprocessing of all fish retained under the PSD Program must be carried out under the direction of the authorized distributor. A processor retaining or receiving fish under the PSD Program, at a minimum, must head, gut, and freeze the fish in a manner that makes it fit for human consumption.

(2) Fish that are determined to be unfit for human consumption prior to delivery to an authorized distributor must be discarded under § 679.21(b). Fish that are determined to be unfit for human consumption after delivery to the authorized distributor must be destroyed in accordance with applicable sanitation laws and regulations.

(3) Authorized distributors and persons conducting activities supervised by authorized distributors may retain prohibited species only for the purpose of processing and delivering the prohibited species to hunger relief agencies, food networks or food distributors as provided by this section. Such persons may not consume or retain prohibited species for personal use and may not sell, trade or barter, or attempt to sell, trade or barter any prohibited species that is retained under the PSD pro-

gram, except that processors may convert offal from salmon or halibut that has been retained pursuant to the PSD program into fish meal, fish oil, or bone meal, and sell or trade these products.

(4) No prohibited species that has been sorted from a vessel's catch or landing may be retained by a vessel or processor, or delivered to a delivery location under this section, unless the vessel or processor and delivery location is included on the list provided to the Regional Administrator under paragraph (b)(1)(xi), (b)(1)(xiii) or (b)(3)(v) of this section.

[61 FR 38359, July 24, 1996, as amended at 63 FR 32145, 32146, June 12, 1998; 65 FR 78121, Dec. 14, 2000; 66 FR 53122, Oct. 19, 2001; 67 FR 4148, Jan. 28, 2002; 69 FR 52612, Aug. 27, 2004; 75 FR 53067, Aug. 30, 2010; 77 FR 42636, July 20, 2012]

EFFECTIVE DATE NOTE: At 67 FR 4158, Jan. 28, 2002, § 679.26 was amended in paragraph (c)(3) by removing the words “until 1 year after” and inserting in its place “until 3 years after”. The amendment contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

### § 679.27 Improved Retention/Improved Utilization Program.

(a) *Applicability.* The owner or operator of a vessel that is required to obtain a Federal fisheries or processor permit under § 679.4 must comply with the IR/IU program set out in this section while fishing for groundfish in the GOA or BSAI, fishing for groundfish in waters of the State of Alaska that are shoreward of the GOA or BSAI, or when processing groundfish harvested in the GOA or BSAI.

(b) *IR/IU species.* The following species are defined as “IR/IU species” for the purposes of this section:

(1) Pollock.

(2) Pacific cod.

(3) Shallow-water flatfish species complex in the GOA as defined in the annual harvest specifications for the GOA (beginning January 1, 2003).

(4) For catcher/processors not listed in § 679.4(1)(2)(i) using trawl gear in the BSAI, all species listed in Table 2a to this part, except for groundfish in prohibited species status.

(c) *Minimum retention requirements*—(1) *Definition of retain on board.* Notwithstanding the definition at 50 CFR 600.10, for the purpose of this section,

to retain on board means to be in possession of on board a vessel.

(2) The following table displays minimum retention requirements by vessel category and directed fishing status:

If you own or operate a ...	and ...	you must retain on board until lawful transfer ...
(i) Catcher vessel .....	(A) Directed fishing for an IR/IU species is open .....	all fish of that species brought on board the vessel.
	(B) Directed fishing for an IR/IU species is prohibited	all fish of that species brought on board the vessel up to the MRA for that species.
	(C) Retention of an IR/ IU species is prohibited .....	no fish of that species.
(ii) Catcher/processor .....	(A) Directed fishing for an IR/IU species is open .....	a primary product from all fish of that species brought on board the vessel.
	(B) Directed fishing for an IR/IU species is prohibited	a primary product from all fish of that species brought on board the vessel up to the point that the round-weight equivalent of primary products on board equals the MRA for that species.
	(C) Retention of an IR/IU species is prohibited .....	no fish or product of that species.
(iii) Mothership .....	(A) Directed fishing for an IR/IU species is open .....	a primary product from all fish of that species brought on board the vessel
	(B) Directed fishing for an IR/IU species is prohibited	a primary product from all fish of that species brought on board the vessel up to the point that the round-weight equivalent of primary products on board equals the MRA for that species.
	(C) Retention of an IR/IU species is prohibited .....	no fish or product of that species.

(d) *Bleeding codends and shaking longline gear.* Any action intended to discard or release an IR/IU species prior to being brought on board the vessel is prohibited. This includes, but is not limited to bleeding codends and shaking or otherwise removing fish from longline gear.

(e) *At-sea discard of product.* Any product from an IR/IU species may not be discarded at sea, unless such discarding is necessary to meet other requirements of this part.

(f) *Discard of fish or product transferred from other vessels.* The retention requirements of this section apply to all IR/IU species brought on board a vessel, whether harvested by that vessel or transferred from another vessel. At-sea discard of IR/IU species or products that were transferred from another vessel is prohibited.

(g) *IR/IU species as bait.* IR/IU species may be used as bait provided that the deployed bait is physically secured to authorized fishing gear. Dumping of unsecured IR/IU species as bait (chumming) is prohibited.

(h) *Previously caught fish.* The retention and utilization requirements of this section do not apply to incidental catch of dead or decomposing fish or

fish parts that were previously caught and discarded at sea.

(i) *Minimum utilization requirements.* If you own or operate a catcher/processor or mothership, the minimum utilization requirement for an IR/IU species harvested in the BSAI is determined by the directed fishing status for that species according to the following table:

If...	then your total weight of retained or lawfully transferred products produced from your catch or receipt of that IR/IU species during a fishing trip must...
(1) directed fishing for an IR/IU species is open,	equal or exceed 15 percent of the round-weight catch or round-weight delivery of that species during the fishing trip.
(2) directed fishing for an IR/IU species is prohibited,	equal or exceed 15 percent of the round-weight catch or round-weight delivery of that species during the fishing trip or 15 percent of the MRA for that species, whichever is lower.
(3) retention of an IR/IU species is prohibited,	equal zero.

## § 679.28

(j) [Reserved]

[62 FR 63890, Dec. 3, 1997, as amended at 62 FR 65381, Dec. 12, 1997; 68 FR 52144, Sept. 2, 2003; 69 FR 32903, June 14, 2004; 71 FR 17381, Apr. 6, 2006; 72 FR 52722, Sept. 14, 2007; 73 FR 76166, Dec. 15, 2008; 74 FR 62508, Nov. 30, 2009; 75 FR 53069, Aug. 30, 2010; 77 FR 6502, Feb. 8, 2012; 78 FR 12632, Feb. 25, 2013]

### § 679.28 Equipment and operational requirements.

(a) *Applicability.* This section contains the operational requirements for scales, observer sampling stations, bins for volumetric estimates, vessel monitoring system hardware, catch monitoring and control plan, and catcher vessel electronic logbook software. The operator or manager must retain a copy of all records described in this section (§ 679.28) as indicated at § 679.5(a)(5) and (6) and make available the records upon request of NMFS observers and authorized officers as indicated at § 679.5(a)(5).

(b) *Scales used to weigh catch at sea.* In order to be approved by NMFS a scale used to weigh catch at sea must meet the type evaluation requirements set forth in paragraph (b)(1) of this section and the initial inspection and annual reinspection requirements set forth in paragraph (b)(2) of this section. Once a scale is installed on a vessel and approved by NMFS for use to weigh catch at sea, it must be reinspected annually and must be tested daily and meet the maximum permissible error (MPE) requirements described in paragraph (b)(3) of this section.

(1) *List of scales eligible for approval.* The model of scale must be included on the Regional Administrator's list of scales eligible to be approved for weighing catch at sea before an inspector will schedule or conduct a scale inspection under paragraph (b)(2) of this section. A scale will be included on the list when the Regional Administrator receives the information specified in paragraphs (b)(1)(i) through (iv) of this section. This information identifies and describes the scale, sets forth contact information regarding the manufacturer, and sets forth the results of required type evaluations and testing. Type evaluation and testing must be conducted by a laboratory accredited

by the government of the country in which the tests are conducted.

(i) *Information about the scale.* (A) Name of scale manufacturer.

(B) Name of manufacturer's representative.

(C) Mailing address of scale manufacturer and manufacturer's representative.

(D) Telephone and fax number of manufacturer's representative.

(E) Model and serial number of the scale tested.

(F) A written description of the scale and diagrams explaining how the scale operates and how it compensates for motion.

(G) A list of the model numbers of all scales for which type evaluation results are applicable, identifying the differences between the model evaluated in the laboratory and other models listed. The scales may differ only in the elements of the scale that perform motion compensation, the size or capacity of the scale, and the software used by the scale.

(H) A list of types of scale adjustments that will be recorded on the audit trail, including the name of the adjustment as it will appear on the audit trail, and a written description of the adjustment.

(ii) *Information about the laboratory.* (A) Name of laboratory.

(B) Mailing address of laboratory.

(C) Telephone and fax number of laboratory's representative.

(D) Name and address of government agency accrediting the laboratory.

(E) Name and signature of person responsible for evaluation of the scale and the date of signature.

(iii) *Checklist.* A completed checklist indicating that all applicable technical and performance standards in appendix A to this part and the laboratory tests in the annex to appendix A to this part have been met.

(iv) *Verification of test results.* Verification that a scale meets the laboratory evaluation and testing requirements in appendix A of this part and each of the influence quantity and disturbance tests as specified in the annex to appendix A to this part:

(A) Test results and data on forms supplied by NMFS;
